

Michel Bardel's list.

It is more than my collection list. It is a tentative list of all existing mechanical machines since 1820. I have worked it out for more than ten years, using all the lists, catalogs, brochures, books, ads I could find. There are still lists to come, so this table will increase regularly. See the [FAQ's about this list](#) and don't hesitate to give your feed back and [help me](#) improve this list.
